

Counterfactual welfare deltas vs baseline (6p gammafree fit)

Change in welfare component, \$/facility present value, E = \$50k

Component Firm surplus External damage Govt outlay Social welfare

CF2 (subsidy) and CF4 (mandate) act on the replace margin, which carries the F_replace single-tank-reset caveat (replace off-support ~98%, Ticket 014). Their welfare numbers are INDICATIVE, not validated. CF1 and CF3 act through clean (premium / maintain) channels.
